

**LAW SUIT OVER
WYMAN HOTEL.**

Weihes Sue C. W. Patterson
for Rent Alleged to
Be Due.

WILL BE ADJUSTED AMICABLY

Proprietor Patterson Says Effort to
Freeze Him Out Will Fail—His
Claim for \$6,000 Against Henry
Weihes He Wants Settled.

Suit in ejectment was filed yesterday afternoon in Uniontown against C. W. Patterson, proprietor of the Wyman Hotel, Henry and Charles Weihes, as trustees, claim five months rent at \$100 per month remains unpaid together with \$100 still due on the rent for December, 1910. Patterson stated this afternoon the matter would be settled and that he does not intend being frozen out of the hotel business.

It is understood there are other parties after the Wyman hotel lease which Mr. Patterson holds until January 1, 1917. Patterson says the suit against him is a step in an effort to make the sale.

Patterson admits not paying the rent. He claims he wants to recover a bonus of \$6,000 he paid to get the lease in the first place. He negotiated with Henry Weihes for the lease and alleges that Henry told him the others interested in the estate demanded \$5,000 before they would make out the lease. It later developed, according to Patterson's story, that Henry Weihes kept the \$5,000. When others of the estate learned of this transaction against Henry Weihes was entered.

According to Patterson he was told that the \$5,000 would be returned. Instead, it has been divided among the heirs.

Patterson expected to retain the \$6,000 from the rent but the suit entered yesterday makes this impossible. He stated today that the matter of rent would be amicably adjusted and in all probability the suit will be withdrawn.

**A Unique Series
of Sunday Sermons**

The pastor of the Christian Church has invited a number of the ministers to present to his congregation the distinctive tenets of their faith. In response to this invitation the following ministers will make a statement of the outstanding features of the denomination with which they are identified, each sermon to be on "Why I Am What I Am":

Rev. J. L. Pruitt, July 2; Rev. B. Frank White, July 9; Rev. E. A. Palmquist, July 16; Rev. R. C. Wolf, July 23; and Rev. J. P. Allison, July 30.

Mr. Allison will fill the pulpit of the various ministers on the dates indicated above. This series of sermons is the outgrowth of a series of prayer meeting topics which have been under consideration in the Christian Church under the general heading "The Debt We Owe to the Various Denominations." It occurred to Mr. Allison that it would be instructive to hear the statement from the lips of the pastors themselves.

At the Connellsville Garage it was stated this morning that for the first time the overhauling has been cleared up. Several cars are in the shop for minor repairs but it has not been necessary to tear down any of the latest arrivals.

Auto owners report the roads in good condition. The recent rains, they say, have only helped put them in good shape.

**Garrard Denies
Anti-Jew Attitude**

United Press Telegram.
WASHINGTON, June 10.—Having no feeling against the Jews and recognizing that the pogroms in the case of Frank Bloom had been stolen from Fort Meyer, Colonel Joseph Garrard, commandant of the post, today defended himself for the reprimand administered by President Taft because of his adverse report on Bloom's application for an examination in the army.

Garrard states that the army regulations require an expression of opinion in such cases as Bloom's and that he merely expressed the belief that Bloom's application for permission to take the examination for promotion should not be granted.

Showing after entering the application Garrard asserted that the papers were stolen and because of the consequent publicity, he stated today, "President Taft could do nothing else than make a public reprimand. I do not resent the President's attitude. I realize that thoroughly and prefer to say nothing."

Colonel Garrard declared that he had never taken the position that Jews, as a class, were objectionable.

**Pay Board Bill?
Nix; Eat Dinner**

Does Benjamin Smith owe the West Penn restaurant \$5 on a board bill? Two justices of the peace decided not yesterday but yesterday W. C. Bishop is far from satisfied. It is not likely he will proceed against Smith again, however.

Yesterday Smith had a hearing before Justice of the Peace W. P. Clark. He had posted \$10 to cover the bill and costs. Justice Clark heard the case and decided the money should be returned.

Bishop beat it across the river and made information before Squire P. M. Buttermore. The parties in the case adjourned to Squire Buttermore's court when another hearing was held. Squire Buttermore dismissed the case, as had Squire Clark, and to make amends for the trouble Smith was put to, stood the expense of dinner for the defendant and his wife.

The injunction had construction held up at the crossing over Graham avenue. At Uniontown this morning it was stated that all but the final stop in the injunction proceedings had been taken. This will probably be done on Monday.

Criminal court for the June term was practically completed this morning when a number of sureties of the peace cases were disposed of. C. M. Anderson will pay the costs in a trespass case brought by a Frick Coke Company watchman at Lodi. Discussed by Baptists for the Mt. Pleasant Institute.

The trend of change in the character of the secondary schools which is being felt throughout the country was brought before the Pittsburgh Baptist Association yesterday morning at the opening session of the second day of its seventy-second annual meeting of the Wilkesburg Baptist church. TO CONTINUE 2-CENT RATE.

No Truth in Wheeling Story of Increase by B. & O.

A report was recently sent out from Wheeling to the effect that the B. & O. was making plans to return to the 2-cent basis of local passenger fares in West Virginia. The report appears to have been without any foundation in fact, as is indicated by the following statement from the company's representative at Baltimore:

"We do not contemplate making any change in local fares within the State of West Virginia, which are now on a 2-cent basis in conformity with the legislative enactment."

The money will be handed the Town Council on Mr. Brown's account with the borough. In other words, when after funds, the School Board went to Council to it. Now Council will get the coin, except the money advanced on taxes for the Smith estate which the courts have decided are not collectible. **Company D Made
a Better Showing**

Company D did not win the shoot for the Captain Cook trophy cup in Homestead, yesterday, but it improved its position over last year material. The Connellsville boys rose from eighth to third and forced the crack shots from Company F to give ground. The Indiana team scored second last year but the Hollidaysburg delegation representing Company G and Company D's delegation put Indiana on ice.

Captain Kidd attributes the failure of Company D to do even better to the difference in the targets. Next year he intends sending the team down a day or two before the contest to get acquainted with the range. Company D lost points on the rapid fire test. The score, out of a possible 620 points were as follows:

Co. I, Greensburg	590

**LITTLE PROGRESS
BY PRESTON COMPANY**

In Preparation of Its Case
Before Commerce Commission.

BOTH HAVE SAME DEFENSE

In Appealing From the Representations Made by Coke and Coal Men of Connellsville and Pittsburg Fields Against Freight Rates.

The Preston County Coal & Coke Company of West Virginia has made but little progress in the preparation of its case before the Interstate Commerce Commission, following the charges of discrimination filed by the Coke Producers' Association of the Connellsville region. The coke producers will present their side of the case before the commission, and some weeks will be granted the Preston county company and the railroads to file their statements in regard to the matter. Consequently little of an absolutely definite nature will be done until the coke producers are heard. The Preston county officials have received no notice as to the date of the hearings.

It happens that in this particular instance the Preston county company and the railroads will put up practically the same defense. The defenses will be conducted separately, however, having no connection, the Preston county company joining in the fight to protect the West Virginia shippers.

West Virginia producers state that the action of the railroads in equalizing the two former rates on coal shipped to the market seems unfair in the 90 per cent of the coke hauled to Chicago is furnace coke on which the former rate is \$2.35 was deemed ample. The new rate is \$2.50 which has been announced as effective June 15th. This ruling, however, has very little effect on the producers in this section as but little furnace coke is shipped to Chicago.

NATURE SPARES

The Stricken Rose From Grief.
What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable storehouse of pleasing rewards, for those who seek her aid in the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newb's Herpinia absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c in stamps for sample to The Herpinia Co., Detroit, Mich.

One dollar bottles guaranteed; Graham & Co., Special Agents.

BILLS SIGNED

By Governor Tener Place Important Laws in Statute Books.

HARRISBURG, June 10.—All appropriations made by the State to charitable, benevolent, philanthropic, educational or eleemosynary institutions, not wholly under State control, for the purpose of erecting buildings, acquiring real estate or making permanent improvements, are made liens on the premises of such institutions by the terms of the McNeel bill, approved by Governor John K. Tener last night. Such a provision was attached to appropriation bills approved in 1909, but the bill signed last night enacts it into a general law.

The act requires that, as soon as appropriations are made, the institution is to be informed and, if it acquiesces in the law, the fact is to be certified to the auditor general. When money is paid the prothonotary of the county wherein the premises are located is to be notified and the liens are to be entered in a docket to be kept for the purpose.

Provision is made for the discharge of the liens when any institution pays the amount of the appropriation and, when a sale is made, the lien can be paid by a process, provided in the act, the interests of the State being protected first of all. Should at any time before the lien is paid in full an institution fail to utilize the property, the State may issue a writ and sue out.

The governor also approved the Vero bill, creating the Department of Recreation in first class cities. Other bills signed included:

STOPPING A NOSEBLEED.

By This Method It Is Simply a Matter of Imagination.

In many experiments carried on during the last few years it has been ascertained that the mind controls to a wonderful extent the flow of blood to any particular part of the body. The following experiment has been tried as many as ten times by me and has not failed once.

When the nose starts to bleed, immediately persuade yourself to believe that you are running with all your might up the steepest flight of steps you can think of or up a high hill; that is, just think of doing either of these things and doing it fast. Think at the same time that you are carrying a heavy piece of baggage with both hands and add thoughts of any other bodily exertion. You will be surprised at the quickness with which your trouble ends.

The explanation is that when we really start to run more blood is given to the arteries supplying the muscles of the legs than they were receiving while at rest. This has been proved. As the same thoughts in the mind produce approximately the same bodily effects, if one merely thinks to run, but does not run, the blood will go to the legs anyhow and away from the head, as desired.

There are many common experiences of sensations started by thoughts. If one looks at a lemon and thinks of sucking it his mouth immediately waters, and I have no doubt that many people who read this will have their mouths watering from the simple reading.—Lawrence Hodges in Chicago Record-Herald.

TALE OF A NAIL.

The Quasi Way in Which a Crime Was Brought to Light.

Dr. John Donne, the famous English divine and poet, who lived in the reign of James I. was a voracious Sherlock Holmes. One of his famous exploits was as follows: He was walking in the churchyard when a grave was being dug, when the next cast up a moldering skull. The doctor felt it took up and in handling it found a headless nail driven into it.

This he managed to take out and conceal in his handkerchief. It was evident to him that murder had been done. He questioned the sexton and learned that the skull was probably that of a certain man who was the proprietor of a brandy shop and was a drunkard, being found dead in bed one morning after a night in which he had drunk two quarts of brandy.

"Find me a wife," asked the doctor. "Yes," "That character does she bear?" "She bore a very good character, only the neighbors gossip because she married the day after her husband's funeral. She still lives here." The doctor soon called on the woman. He asked for and received the particulars of the death of her husband. Suddenly opening his handkerchief he showed her the telltale nail, asking in a loud voice, "Madame, do you know this nail?" The woman was so surprised that she confessed, was tried and executed.—London Tit-Bits.

ART OF JUGGLING.

A Means of Recreation For the Sedentary or Bedridden.

Speaking of conjuring, the allied art of juggling is one of the most amusing and valuable of diversions, especially to the sedentary. Many physicians become expert in juggling, but it is to their patients that it is most useful.

The bedridden, if they retain the use of their hands, may beguile many a weary hour in learning to keep three or four tennis balls in the air at once and in balancing sticks and other simple objects on the forefinger or on the chin.

For the brain worker who does not care for walking there is no better recreation. It has often occurred to us that in cases where there is any reason to fear some form of paralysis the educating of diseased cerebral, cerebellar and spinal centers by the rapid and complex movements required in juggling might serve to act as an efficient preventive.

We do not wish to claim too much for manual education of this kind, but we may point out that it tends to perfect nervous pulse and that no juggling trick can be properly done if the performer indulges in dissipation even so mild as beer and cigarettes.—American Medicine.

Talking to the Doctor.

While making some professional calls in a sparsely settled district, I came upon a little plump, rosy cheeked girl trudging toward home with her slate and dinner pail in her hand. I asked her to ride with me. I could see that she was a very timid child, and efforts to engage her in conversation were unavailing. She would meekly answer "Yes" or "No," but not another word would she speak.

A few weeks later I was called to the little girl's home to attend another member of the family for a slight ailment. When about to leave the mother spoke up smilingly and said: "Do you remember my little girl riding with you a few weeks ago? Well, when she got home she said, 'Mamma, I rode from school with the doctor, and he kept talking with me and talking to me, and I just didn't know what to do, for you know doctors charge you when you talk with them, and I didn't have any money.'"

Terrible Weather Again.
The temperature showed signs today of hitting the high places. At 5 o'clock this morning it was 72 degrees against 80 last evening and 84 yesterday morning. Last night was cool and a drizzle fell about 11 o'clock.

THE PITTSBURGH PROBE

INTO BIG COAL PURCHASE.

The official inquiry of the United States Grand Jury at Pittsburgh, under direction of the District Attorney and a professional Trust-Buster from the Attorney General's office at Washington, into the sale by the Pittsburgh Coal Company of a portion of its coke and coal property to the United States Steel Corporation, with the avowed purpose of showing what the transaction is an attempt to create a Coke Trust, will be interesting and perhaps amusing to the merchant coke operators of the Connelville region, who know the bitterness of unrestrained competition.

The Pittsburgh inquiry indicates that the Trust-Busting business is becoming more frank and open, more more friendly than wise, more more than profitable. The acquisition of the Pittsburgh property by the Steel Corporation will not make the latter a Coke Trust. It is true that the U. S. Frick Coke Company owns a majority of the ovens in the Connelville coke region, and is the largest owner of coke coal therein; but this company is subsidiary to the Steel Corporation, and has not sold coke to anybody else for years past, nor is it expected it will enter the open market.

It is not in competition with the merchant operators. The latter are very much in competition with themselves and they make their own market. Their plants aggregate 19,133 ovens, while the Frick plants contain 20,351 ovens; but many of the Frick plants are old operations approaching exhaustion and decay; and, as has already been explained in these columns, the Pittsburgh coal purchase was undoubtedly prompted by a desire to conserve its Connelville coke supply against the future needs of the United States Steel Corporation, and not for the purpose of forming a Coke Trust.

The Pittsburgh Coal Company, on the other hand, is top-heavy with loaded indebtedness issued in payment for coal which is as yet undeveloped and must remain for years to come. The cost of carrying this dead investment is what has been eating up the profits of the company and threatening disaster in evil times. There alone exists, it is stated, a 25-year contract running through a number of years yet, made when the cost of coal was so much cheaper than now, which contract it has for some time been unprofitable to the Pittsburgh Coal Company. The contract was made with the United States Steel Corporation. It is understood the deal cancels it.

It will thus be seen that the Pittsburgh Coal Company management only did its duty to its stockholders in making this sale, and we note that the management ratified it without waiting for political investigations and government regulations. It will perhaps be found that there is nothing in the Constitution, the Laws or the Customs that will unmake this deal.

GARY WON'T SINK!

NEITHER WILL PITTSBURGH.

Certain loyal and zealous Pittsburgh citizens are pursuing a rather aggressive, but possibly not very profitable, policy in their treatment of the United States Steel Corporation. The present investigation of this company appears to have been instigated by actively urged by a Pittsburgh stock broker, who has been very conspicuous at the hearings in Washington and who has returned home with the further information that a director of the Steel Corporation declared to him that Pittsburgh is a "has-been" in the iron and steel business.

At the same time this Washington dispatch announces that the town of Gary is built upon the quicksands, and that all the mills there will probably be removed to McKeesport. This is encouraging if true, but in view of the current efforts being made in certain sections to sink Gary out of sight and out of business these particular quicksands, like all others, should be approached with caution by the feet of Truth.

Whether we like it or not, we might as well make up our minds that Gary is not going to sink out of sight very soon, and that so far as the Pittsburgh iron and steel district and the Connelville coke region is concerned, Gary is there to stay. There's no use gazing at the done. It is better to swallow it at once and have the agony over.

Put the dove in bad only in the imagination of some people. Neither the Pittsburgh district nor the Connelville region are "has-beens," and it will be a long time before they attain to that class. The purchase of the Pittsburgh Coal Company's Connelville region coking coal by the Steel Corporation has positive evidence that the latter has by no means abandoned the Pittsburgh district, and there are reasons to think that it never will, especially if the Lake area can be brought by boat to the wharves of the Pittsburgh mill.

In the meantime the Pittsburgh people should not worry too much. Gary won't sink, neither will Pittsburgh.

Every day in Bargin Day in Connelville for those who are keeping the columns of The Courier carefully.

A POSSIBLE EXTENSION OF THE HOBBLE SKIRT IDEA.

The Street and Sewer Committee of the Town Council are making a special study of conditions in and about the city. It is the only way to intelligently deal with them.

The Pittsburgh district is enlarging its iron capacity without the aid or consent of Gary.

The Pull Crew bill got a full hearing, anyhow.

The work of the High School Seniors ended in play, and the Play was good.

Hesters usually blow up from lack of water, but one can never tell how the average heater is going to act.

The hobble skirt is a cripple fashion and it is ready to go to the waste. Men seldom condemn women's fashions, but when they do the style has to take a walk. In this case it is a hobble, but the pace is fast.

Watermelons have appeared. Jamaica Ginger has been on guard right along.

The banks have been called, but they are all ready for the show-down.

If June will continue as fair as it is, it will go down in history as an ideal bridal month.

The Connelville soldiers are to be put through their paces.

First Aid in mine work grows in strength as well as in grace.

Somerset county continues to bridge it.

The new law requires milk offered for sale to be up to higher standards than heretofore. The Health Officer will have to get actively on the job with his testing machine.

West Virginia will go back to 2-cent railroad fares. It is a backward step for the traveling public.

"O, listen to the band!"

The brewers, the distillers and the booze clubs might as well submit gracefully to judicial regulation.

Evans, Confessed Bribe Taker, Who Implicates Other Ohio Legislators in Bribery Probe.

COLUMBUS, O., June 10.—The evidence of Owen J. Evans, legislator, who confessed to bribe taking, before the Grand Jury will, it is expected, result in the indictment of several more lawmakers. Evans gained immunity from two indictments by turning State evidence. He pleaded guilty previously to one indictment charging him with accepting a bribe of \$100 to work in favor of the so-called salary

loan bill. He was fined \$500 by the court. Evans, who was a member of the steering committee in the lower house, automatically lost his seat in the legislature when he confessed. He has implicated several men in connection with bribery whose names have not yet been mentioned in the investigation at Columbus, according to general belief.

High School Class Play at Soisson Presented Before Large Audience.

The program for the annual commencement exercises of the High School opened last evening in the Soisson theatre. The annual class play, "Mr. Easyman's Niece," the play was a delightful farce, comedy and was presented in the presence of an audience that packed the theatre. The audience was a representative and appreciative one, and a generous applause followed each act. That the High School exercises are of interest and enjoyed by the patron and friends of the school is shown by the large attendance. Members of the Board of Directors occupied the box to the right and the members of the Senior Class were seated in the box to the left.

The play was cleverly presented, and the work of each of the participants was above that of the average amateur. Their stage manner was easy and graceful and the play passed off without a hitch. Karl Marshall as "Mr. Stephen Easyman, a wealthy broker," made a great hit with his clever acting, as did Miss Freda Rhodes, as "Miss Judith Carroll, a maiden aunt." Miss Norma Woodall, as "Mrs. Easyman," and Miss Sara Gallagher as "Miss Beale Carroll," acquitted themselves in a very creditable manner. Miss Margarette Lyle, as "Dedemona Spencer, the ghost," came in for a great share of the honors. Miss Lyle's part was a more difficult one and was well acted. The remainder of the cast was as follows: "Jackson, a servant," Julius Swartz; "Tom Ashleigh," Charles Wolf; "Carow Cartron, Mr. Easyman's nephew," Malcolm Scott; "Michael Flynn, a servant," Lloyd Buttermore; "Mr. Sharp, a detective," Edward DeWitt; Lloyd Buttermore was very good. His portrayal of an Irish servant was excellent. The play opened with a scene in the living room of Mr. Easyman's home. Mr. Easyman is a believer in the materialization of spirits and as the result many funny situations follow. While reading a book on spiritualism

Grand Jury Through; Sentences Imposed

UNIONTOWN, June 10.—The Grand Jury returned from Connelleville yesterday afternoon about 3 o'clock and after being in session for about an hour made its report to the court. During the five days it was in session 101 bills were passed, of these 74 were true bills, while 27 were ignored. None was withdrawn. The jury passed upon four bridges, recommending each of them.

On special matters the Grand Jury made the following report: After making such investigation as we deem necessary we recommended the making of such additions to the present court house building as will not only provide for the proper accommodation of the increased business in all departments of the county now absolutely necessary, but will provide for the future increase for many years to come. After due consideration of the criminal business of this county we recommend and approve the establishment of a work house in and for the county of Fayette and recommend that the proper authorities take the necessary

steps at the earliest possible time to establish such work house for the county of Fayette and that said authorities use any suitable funds already held for county purposes, or purchase any quantity of land within the county suitable for such work house, erect buildings and make such improvements thereon they may deem necessary for a work house.

We recommend that the proper officers erect a new county home, insane asylum and children's home, the said buildings to be such who and constructed as will best provide for the interest of the county.

The following sentences were imposed by Judges H. C. Uebel and J. Q. Van Swearingen: Harry Cretchen, 2 b., \$15 costs, \$12.25 a week and \$100 bond. Mike Verbocky, s. b., costs and six months to jail. Charles Ward, s. b., continued. Mike Broadak, setting liquor, costs, county jail for 90 days and \$200 fine. George Roth, uttering forged instrument, costs and \$25 fine. C. M. Anderson, d. n. s., costs, \$2.50 a week and \$200 bond. John Smith, costs \$25. Paul Valentin, fornicator, costs \$25. Giovanni Pipp, ad. l., costs, 6 cents

COMMENCEMENT 1911

This is the glad, triumphant Commencement season when Sis graduates in a crêpe de mator gown that sets her back farther than the whole four-years course has done. A Coal Deal Under Suspicion

Thomas Latimer, a real estate man of the Northside, B. C. Phillips, representing himself to be an English capitalist, and Henry B. Bidder, who says he is Phillips' secretary, were arrested in New York yesterday at the request of the Pittsburgh police, charged with conspiracy to defraud H. H. Stolzenbach, president of the Diamond Coal Company of Pittsburgh. They were locked up in the Tombs last night in default of \$10,000 bail. Stolzenbach, with his attorney George H. Hosack, and Detective Howard Robinson, left for New York to appear against the three men. The accused will be brought to Pittsburgh for trial. It is found they can be tried there instead of New York.

Latimer and his companions said the arrests were all "a terrible mistake" and that everything could be explained satisfactorily. The detectives, who made the arrests said they found a draft for \$25,000 on one of the prisoners and that this draft was important in the case.

According to the allegation of Stolzenbach, Latimer secured Phillips to him last week as an English capitalist who had \$1,000,000 to invest in Western Pennsylvania and West Virginia coal lands. The president of the Diamond Coal Company agreed to let the Englishman have some of the company's property, and Phillips took that as evidence of good faith. Stolzenbach gave him \$2,000. This was done in New York on June 1, but shortly afterward, Stolzenbach alleged, he learned that he had been swindled. He complained to acting Captain of Detectives Richard Kelly and the latter notified the New York authorities to make the arrests.

A HEALTHY, HAPPY OLD AGE

May be promoted by those who gently cleanse the system, now and then, when in need of a laxative remedy, by taking a desertspoonful of the ever refreshing, wholesome and truly beneficial Syrup of Figs and Elixir of Senna, which is the only family laxative generally approved by the most eminent physicians, because it acts in a natural, strengthening way and warms and tones up the internal organs without weakening them. It is equally beneficial for the very young and the middle aged, as it is always efficient and free from all harmful ingredients. To get its beneficial effects it is always necessary to buy the genuine, bearing the name of the Company—California Fig Syrup Co.—plainly printed on the front of every package.

Trauger Wins First Division

The Trauger team of the First Division defeated Hecla Thursday by the one-sided score of 24 to 3. Trauger is picked by many of the wise ones as the strongest contender for the Lynch cup and the way the boys are going through the First Division it looks like a good bet. Hecla played better ball against Trauger than in any game since the season opened and the officials are by no means certain to remain at the bottom. The score:

Marguerite Won Out.
A ninth inning rally by Marguerite Thursday turned defeat into victory and resulted in the downfall of United to 6. United led all the way until the fatal ninth when Marguerite hammered out five runs. Timely batting did the business, Hall showing signs of weakness at the finish. United batted Goodman hard enough to have won and the Marguerite twirler only got fair support. The hitting of Jones for United was a feature of the game.

Bellevue Juniors Won.
The Bellevue Sunday School team won Thursday evening from the Morgan Sunday School 2 to 3. Steve Bowler twirled a fine game for Bellevue. Myers pitched for Morgan. It was the first game for the Bellevue boys. They hope to add more laurels later.

But, 6; Trotter, 2.
Butte defeated Trotter 6 to 2 at Butte Thursday. Koeke struck out 14 men and could not be beaten safely by the Trotter players. The Butte boys hit Mullin hard. What Butte needs is an official scorer.

The Inebriator League.
Cliff Blankenship's Salt Lake City team is leading the new Union Association.

Charlie Dabb's Norfolk outfit is making the Virginia League teams sit up and speak.
Frank (Easy) Ibell has transferred his Michigan Western League team to Pueblo, Colorado.

Winona got away to a good start and is showing the way in the Minnesota-Vicente League.
Dallas, Waco, Fort Worth and Oklahoma City look to be the strongest contenders in the Texas League race.

Again this season the champion Portsmouth team of the Ohio State League is out in front and going strong.

The Central Association is giving a good show this season, with Galesburg and Ottumwa in the leading roles.

Spokane and Vancouver are giving out the lessons and teaching the Northwestern League team how the game is played.

Coming from nowhere the Columbia team is speeding toward the top at a fast clip in the South Atlantic League race.

With Miller, McAllister and Brown hitting like a pile-driver, Akron looks to be the class in the Ohio and Pennsylvania League.

The Montgomery team which finished at the bottom last year, is making a solid effort for the Southern League pennant this year.

The Zanesville team is setting the pace in the Central League this season.

It has been several years since Vicksburg has won the league, but this year the Little Willees have cut loose and are trimming 'em in the Cotton States League.

Spartanburg Carolina Association club, has sold Outlander Walker to Washington and Grunboro and Winston-Salem, of the same organization, will have several choice players who will no doubt go higher up next season.

A little out of the ordinary to transfer a team that is leading the league but such is the case in the transfer of the Springfield "Three-L" League team to Detroit. Poor attendance at Springfield caused the champions to beat it for other parts.

Good Inexpensive Jewelry

Inexpensive necklaces, lavallieres, pins and chains become the vogue for day-wear when manufacturers begin turning out really good jewelry and department stores began selling such wares on the same basis of profit as for dry goods and like things. Very often we discovered a design on some ornament, we are selling around 50c identical with one a jeweler sells at \$5.00. There is no mystery in that, however, because the \$5 article is likely solid gold and ours filled or plated. We do say, and prove, that the popular priced jewelry as sold at department stores will give satisfactory wear for two to five years and longer, and practically all ours is warranted for a reasonable period. Much of our jewelry is purchased direct from the makers or importers. That serves to eliminate certain costs that benefit you in smaller prices. We take pride in this proven statement that "the new jewelry comes here first and is often disposed of and forgotten by the time other stores bring out like designs."

We Fit Young Feet Carefully

And Sell Proper Footwear for Growing Folks.

The coming Sabbath, "Children's Day" will be observed in some of the churches. Besides dresses, hosiery, hats and underwear now ready for miss to slip on, shoes are really the important item this space will be devoted to.

Equally as important as shoe fabric and shape is the fitting. We are impressed with the fact that children's feet need extra thought and care, so we've made "fitting" a specialty. That combined with the high grade footwear and more worth at the price, for the consumer, should gain your preference.

The New Woman, Invading Man's Domain, Shown at the Bat in a Baseball Game Near Philadelphia.

PHILADELPHIA, June 10.—The annals of the new woman" to invade the fields of activity long dominated by the more men folk is being gratified in many instances. In several States of the Union women have been given the ballot, some of them have developed advanced ability as operators of enterprises, and in the line of athletic endeavor they are continually battling with the sterner sex for the mastery.

For instance, in the accompanying illustration is shown a scene snapped in a recent baseball game near Philadelphia. A team of young women

challenged a team of young men, and they played a most exciting contest. The youths were compelled to don women's garments in order to place themselves on a basis of equality with their fair foes. The photo shows a good looking Philadelphia lassie as she swung mightily at the ball, which, sad to relate, evaded the bat and lodged safely in the glove of the catcher, who is a husky lad wearing some of his sister's clothes.
Does this photograph indicate that the time will come when Hans Wagner will be put out of a job by a muscular "sweet girl graduate" of Yassar?

You Get the Odd Change

The new, Regal, "square-deal" method of pricing shoes at COST PLUS FIVE PER CENT. gives the buyer the benefit of many "odd change" prices.

For example, if the manufacturing cost, of any pair of Regal Shoes, with 5% profit and selling expense added, comes to \$3.85, you get that shoe at \$3.85—not at the old, traditional, \$4.00 price.

The Regal Company has abandoned the old-fashioned idea that good shoes always must be sold at "even money" prices.

Regals give the purchaser exactly what he wants at the smallest profit and lowest price at which shoes of that style and quality can be sold.

Prices range from \$335 to \$585 and are stamped on the shoes at the factory.
